

## Account Plans at Hide-My-Email.info

The following plans are currently available at our service. Each plan is offered for a fixed service period:

- 30 days
- 90 days
- 180 days
- 365 days

The plan becomes effective and the days start elapsing when the paid order is activated for your account. If you buy another plan while the previous one is still active, the new paid order waits in queue and activates automatically after the earlier plan ends. Message limits and related usage statistics are counted in 30-day periods starting from plan activation. Once the effective number of days is reached, the plan is automatically deleted. You can extend the time by purchasing a new plan before your current plan expires.

Plans are used in the order they were placed.
